I. Introduction

A portfolio is a compilation of materials that exemplifies your beliefs, skills, qualifications, education, training and experiences. It provides insight into your personality and work ethic.personal portfolio is an evidentiary document designed to provide qualitative and quantitative information. It is different from a resume in that its intent is not to summarize, but to expand upon and provide evidence relating to accomplishments, skills and experiences, in the classroom, workplace, and community in which you live The career portfolio, in its many forms, serves as a dynamic, developmental tool to assist the new economy learner and worker achieve success in this challenging world of work. A Personal and Career Portfolio is an organized collection of evidence that shows your accomplishments both in and out of school. A portfolio contains samples of your work that exhibit and reveal the quality and variety of your learning, your accomplishments, your skills, and your experiences. Is a portfolio the same as a resume? A portfolio differs from a resume in the following key ways: A resume is usually only 1-3 pages in length and is meant to summarize your accomplishments. A portfolio most often contains many pages and is meant to show evidence of a wide variety of your accomplishments. A resume tells someone what you have accomplished. A portfolio shows someone what you have accomplished.
